

# INTERESTED IN HOW COVID-19 HAS AFFECTED YOUR MENTAL WELLBEING AND DECISION- MAKING?

## SFU's Cognitive Aging Laboratory wants YOU!

The Canadian Anti-Fraud Center has already reported a **loss of 5.5 million dollars to coronavirus-19 frauds and scams**. We are interested in understanding younger and older adults' mental wellbeing, mental abilities, and fears during the coronavirus-19 pandemic. We further wish to understand how these factors affect younger and older adults' decision-making abilities and increase their risk for falling for coronavirus-19 scams.

### Who?

- Adults aged 60 and older
- Must be fluent in English

### What?

- One 1.5-2-hour online testing session where you will complete several questionnaires

### Where?

- A location of your choosing where you have access to a computer and internet

**If you agree to participate, you will have the choice of receiving a \$20 Starbucks giftcard or having \$20 donated to the Canadian Red Cross' Canadian Emergencies and COVID-19 Response Fund on your Behalf**

**Don't miss out on an exciting opportunity to get involved in research!**
