Data sources: BCCDC Weekly COVID-19 Outbreak Reports; list of enhanced surveillance episodes (up to February 28, 2021) from five regional health authorities

Notes:

1. Outbreak names have been standardized to the care home's name, plus a sequential number to indicate different outbreaks at the same care home.
2. In the case of outbreaks that began as enhanced surveillance, the outbreak start date column reflects the day on which enhanced surveillance began.
3. Staff deaths are 0 at all sites; no long-term care or assisted living staff died of COVID-19.
4. The BCCDC Weekly COVID-19 Outbreak Reports include outbreaks that occurred in independent living. For the purpose of this review, independent living was out of scope.
5. All outbreaks in this document (in the review) occurred at the 487 long-term care and assisted living sites in BC. A full list of the 487 sites is available on the OSA's website.
6. Outbreaks in our review began on or before February 28, 2021.
